

# TCARD

## POLYTAG T-CARD

### Description

A tear-resistant (even when cut or ripped) white opaque polypropylene non-adhesive film tag laminated with matt white ink-jet printable PP.

<b>Material</b>	PP
<b>Finishing</b>	Matt
<b>Color</b>	White
<b>Substance</b>	347gsm 200µm
<b>Service temperature</b>	-30°C to +100°C

### Approvals

The face material meets BS5609 parts 2 and 3 when printed with Epson DuraBrite inks in the TM-C3500 and TM-C7500 printers.

### Application

Cards, tags, loop-lock tags requiring good strength and tear-resistance whilst also being printable via water-based ink-jet printers. The material can be printed with both dye inks as well as pigment inks. Can be punched, cable tied, stapled and perforated.

### Recycling

The product does not contain chlorine or other toxic materials. It is a polyolefin based construction so it can be recycled alongside other plastic packaging materials.
